SENIOR FRONT-END DEVELOPER - 8 Years and 8 Months of Experience

PROFILE SUMMARY

Results-driven Senior Front-End Developer with 8+ years of experience in designing, developing, and optimizing scalable, responsive web applications using React.js, Angular, JavaScript, and TypeScript. Skilled in building reusable UI components, integrating RESTful APIs and GraphQL, implementing secure authentication (SSO, OAuth, Azure AD), and improving application performance through modern front-end practices. Experienced in collaborating with UI/UX designers using Figma to transform designs into pixel-perfect, responsive user interfaces. Strong background in Agile development, cross-functional collaboration, mentoring junior developers, and delivering high-quality, user-centric digital solutions.

CORE COMPETENCIES:

- **Languages & Frameworks:** JavaScript, TypeScript, React.js, Angular 15+, HTML5, CSS3, SCSS, SASS, Bootstrap, Tailwind CSS, Python.
- **React Ecosystem:** React Hooks, React Router, Redux, Context API, Component-Based Architecture, Reusable Components, Lazy Loading, Code Splitting.
- **API Integration:** REST APIs, GraphQL, Axios, Fetch API.
- **Testing & Quality:** Jest, Unit Testing, Accessibility (WCAG), Cross-Browser Compatibility.
- **Authentication & Security:** Single Sign-On (SSO), Google OAuth, Microsoft Azure Active Directory (Azure AD).
- **Development Tools:** Visual Studio Code, Git, GitHub, GitLab, Jira, Notepad++.
- **Performance Optimization:** Lazy Loading, Code Splitting, SEO Optimization, Performance Tuning.
- **Databases:** MongoDB, Oracle, SQL.
- **Methodologies & DevOps:** Agile, CI/CD.

PROFESSIONAL EXPERIENCE

Lakkshion SIT Pvt. Ltd. (India) | September 2025 – Present

Project: MediaOps (Social Media Publishing & Content Management Platform)

Tech Stack: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, TypeScript, Python, GraphQL, FastAPI, REST APIs

Roles & Responsibilities:

- Architected and developed scalable, modular front-end applications using React.js.
- Developed and enhanced React-based applications by modernizing existing UI components, improving scalability, cross-browser compatibility, and responsive user experience.
- Collaborated closely with backend developers to integrate RESTful APIs and streamline automated testing processes.
- Led quarterly team goal-setting and performance evaluations while mentoring junior developers to improve technical and professional growth.
- Independently developed and maintained end-to-end features using HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, TypeScript, and React.js.
- Optimized React application performance using lazy loading, code splitting, and component memoization, reducing initial page load time and improving overall user experience.
- Implemented React Router for seamless client-side navigation and dynamic page rendering.
- Implemented Single Sign-On (SSO) authentication using Google OAuth and Microsoft Azure Active Directory (Azure AD), enabling secure and seamless user login experiences.
- Developed accessible and reusable UI components in compliance with WCAG standards, enhancing usability and ensuring an inclusive user experience across applications.
- Wrote comprehensive Jest unit tests for React components, improving code reliability, increasing test coverage, and reducing production regressions.

Chakravuyha Software Technologies Pvt. Ltd. (India) | October 2017 – August 2025

Designation:

UI Developer | October 2017 – November 2019

Front-End Developer | December 2019 – August 2025

Project: Aanvikshiki Art

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, React.js, Redux, React Router, Angular Material, TypeScript

Roles & Responsibilities:

- Developed scalable React.js applications using Redux for state management and implemented reusable component-based architecture.
- Implemented React Router for efficient client-side navigation and dynamic page rendering.
- Migrated legacy systems to modern frameworks, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated with backend developers to integrate RESTful APIs and automate testing workflows.
- Independently managed HTML, CSS, Bootstrap pages and React.js modules to handle transactions end-to-end.
- Optimized components and applied lazy loading techniques for measurable performance improvements.

Project: Accure One

Tech Stack: HTML5, CSS3, JavaScript, TypeScript, Angular 15, Angular Material, RxJS, Bootstrap

Roles & Responsibilities:

- Designed and implemented reusable UI components, boosting development efficiency across teams.
- Integrated REST APIs for live data fetching and implemented robust role-based authentication.
- Conducted thorough unit testing, debugging, and code reviews to ensure high-quality deliverables.
- Independently handled HTML, CSS, Bootstrap pages and Angular modules to manage transactions end-to-end.

- Contributed to Angular-based dashboard components within a hybrid architecture.
- Enhanced UI with Angular animations and implemented efficient client-side routing using Angular Router.
- Actively participated in client meetings to align Angular development approach with evolving business needs.

KEY ACHIEVEMENTS

- Developed scalable React.js and Angular applications using reusable component architectures and modern frontend practices.
- Improved application performance through lazy loading, code splitting, and UI optimization techniques.
- Integrated secure authentication solutions including SSO, OAuth, and Azure AD.
- Built responsive and accessible user interfaces following WCAG standards.
- Mentored junior developers and contributed to code quality improvements through reviews and best practices.

EDUCATION

Bachelor of Technology (B.Tech)
Electronics and Communication Engineering

YITS College of Engineering, Tirupati, Andhra Pradesh

University: Jawaharlal Nehru Technological University (JNTU), Anantapur

Duration: 2013 – 2017

SOFT SKILLS

- Technical Leadership & Mentoring
- Problem Solving & Analytical Thinking
- Cross-functional Collaboration
- Effective Communication
- Adaptability and Continuous Learning
